SKILLS

- **Languages:** Python, JavaScript, TypeScript, C, C++
- **Technologies:** HTML, CSS, JavaScript, React, Tailwind CSS, Node.js, Express.js
- **Databases/Tools:** MySQL, MongoDB, Supabase, Git, GitHub, Figma
- **API:** Rest API, Open Ai API
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

AI Quiz Generator | [GitHub](#)

Jul 2026 - Aug 2026

- Built a full-stack AI-powered quiz generator that creates topic-specific MCQs based on difficulty and question count.
- Integrated the OpenAI API with structured JSON outputs and server-side response validation.
- Developed an interactive quiz flow with answer selection, scoring, and explanations.
- Implemented responsive UI with loading states, validation, error handling, and retry functionality.
- **Tech Stack:** React, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, OpenAI API, REST API

Sampurna Boutique | [GitHub](#)

May 2026 - Aug 2026

- Designed and developed a premium e-commerce landing page with a focus on responsive, high-end "quiet luxury" aesthetics and seamless cross-device compatibility.
- Implemented advanced client-side filtering (by category, color, size, and artisan origin) alongside a unified search system to create a frictionless browsing experience.
- Architected a direct-to-customer ordering flow using dynamic WhatsApp API integration, allowing users to instantly send pre-filled product enquiries to stylists.
- Delivered a highly polished interface featuring custom Intersection Observer scroll animations, graceful image error handling, zero layout shifts, and strict mobile viewport stability.
- **Tech Stack:** React 18, TypeScript, Tailwind CSS, Vite, Lucide React (Icons)

Expense-Flow | [GitHub](#)

Aug 2026

- Developed a responsive personal expense management web application using React, enabling users to track income and expenses with category, payment method, date, and transaction details
- Implemented persistent client-side data management with React Context API and LocalStorage, supporting dynamic transaction creation, editing, deletion, balance calculation, savings rate, and financial summaries.
- Built an interactive notification system that generates real-time in-app alerts for newly added income and expenses, with unread indicators, notification history, and user-controlled notification preferences.
- Designed a clean, responsive dashboard and settings experience with customizable currency, profile management, dark mode, notification controls, data privacy controls, and complete data reset functionality.
- **Tech Stack:** React.js, JavaScript, Tailwind CSS, Context API, LocalStorage, Lucide React, Vite.

CERTIFICATES

- C++ Programming | [Saylor Academy](#) July 2026
- Introduction to Artificial Intelligence | [Infosys Sprinhboard](#) May 2026
- Introduction to Python | [Saylor Academy](#) Feb 2026

ACHIEVEMENTS

- Solved more than **200** programming problems on online coding platforms during regular practice and learning.
- Achieved the **LeetCode 100 Days** Badge by maintaining consistent daily problem solving over time.
- Ranked Top **10** among **60+** teams in a college hackathon with an innovative web solution prototype.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
• *Bachelor of Technology - Computer Science and Engineering; CGPA: 8.11* Aug 2025 - Present
- **Simlapal Madan Mohan High School** Simlapal, West Bengal
• *Higher Secondary Education; Percentage: 89%* May 2021 - Mar 2023
- **New Integrated Govt. School, Simlapal** Simlapal, West Bengal
• *Secondary Education; Percentage: 92.3%* Jun 2020 - Mar 2021
